

CLAS109 • Classical Mythology • Final Exam Guide

A • TERM IDs • 10%

From underlined sections of the quotes – either designating the terms themselves or examples that illustrate the term; study the end-of-chapter lists from Maurizio ch.10-13.

B • MAP • 10%

One or two maps (based on M11 and M13), you'll fill numbers/letters into blanks, based upon the lists provided for those projects. Use your .kmz map as a guide.

C • CLUSTER QUOTE IDs • COMBINED IMPORTANCE • 70%

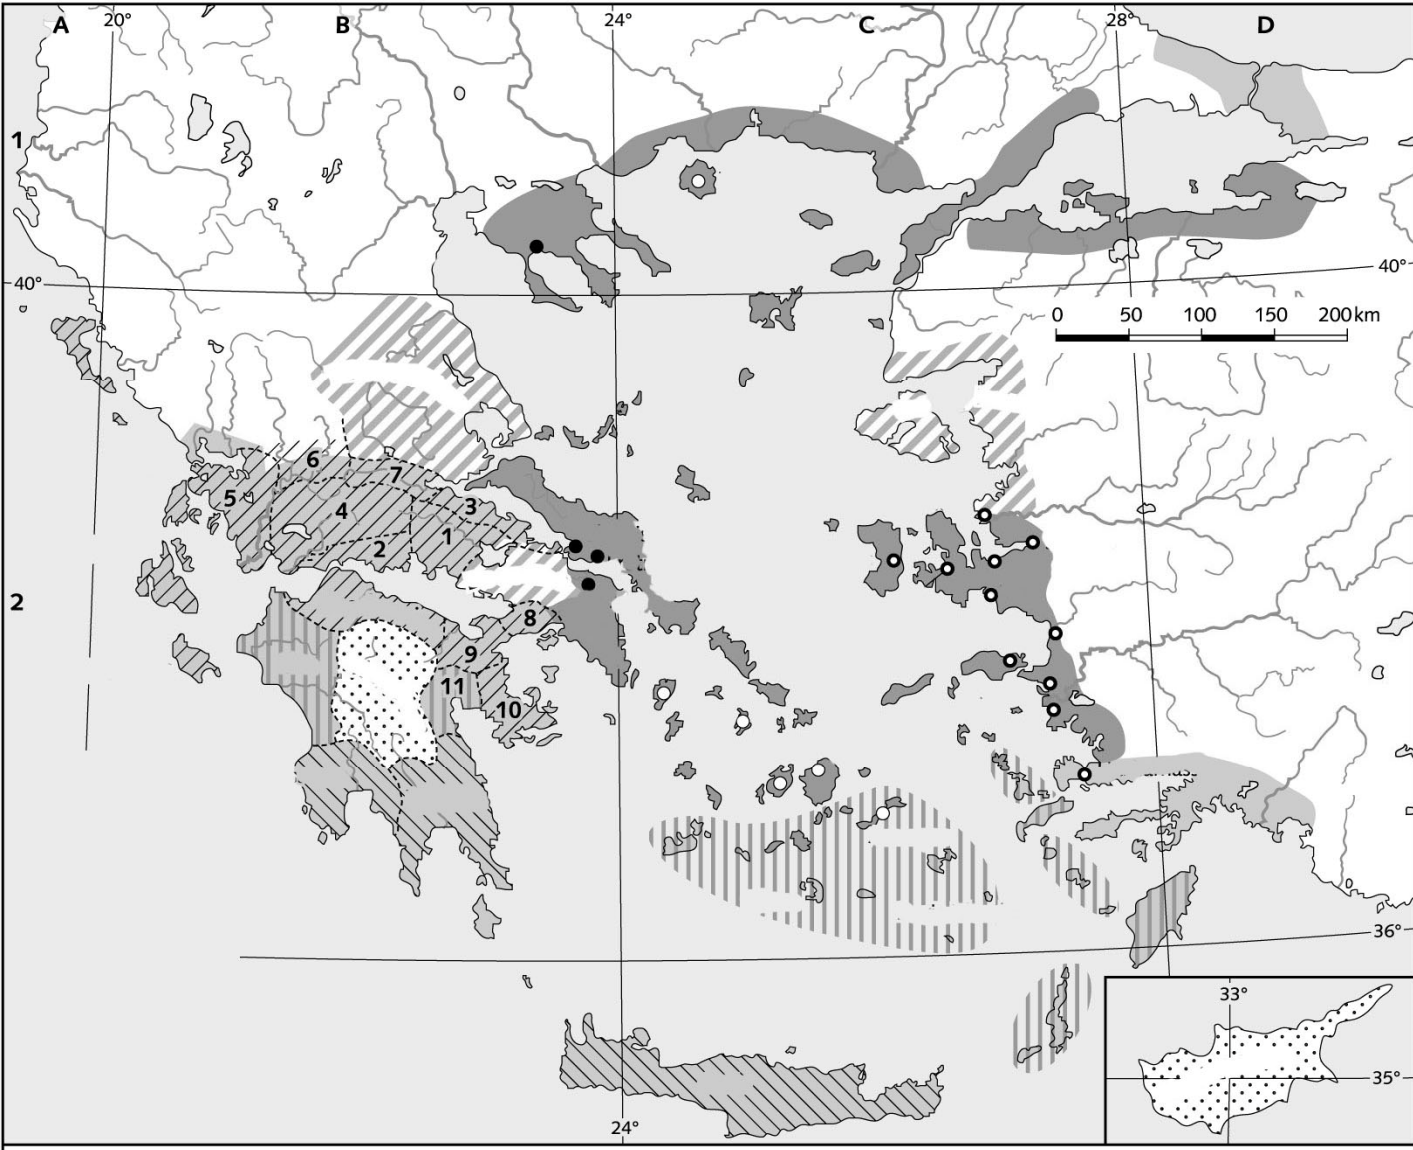

You will get a list of quotes in thematic clusters (final update 48 hours before the exam), clusters that you should prepare in advance; name authors and titles; give historical context (who, what, where, when of author) and literary context (who, what, where, when of text) in a few sentences; explain combined significance of the quotes in a paragraph. For each pair of practice quotes, **practice explaining how and why** the quote comes from a specific author/text; **practice explaining how and why** together they have significance. Use the mouse-over to practice.

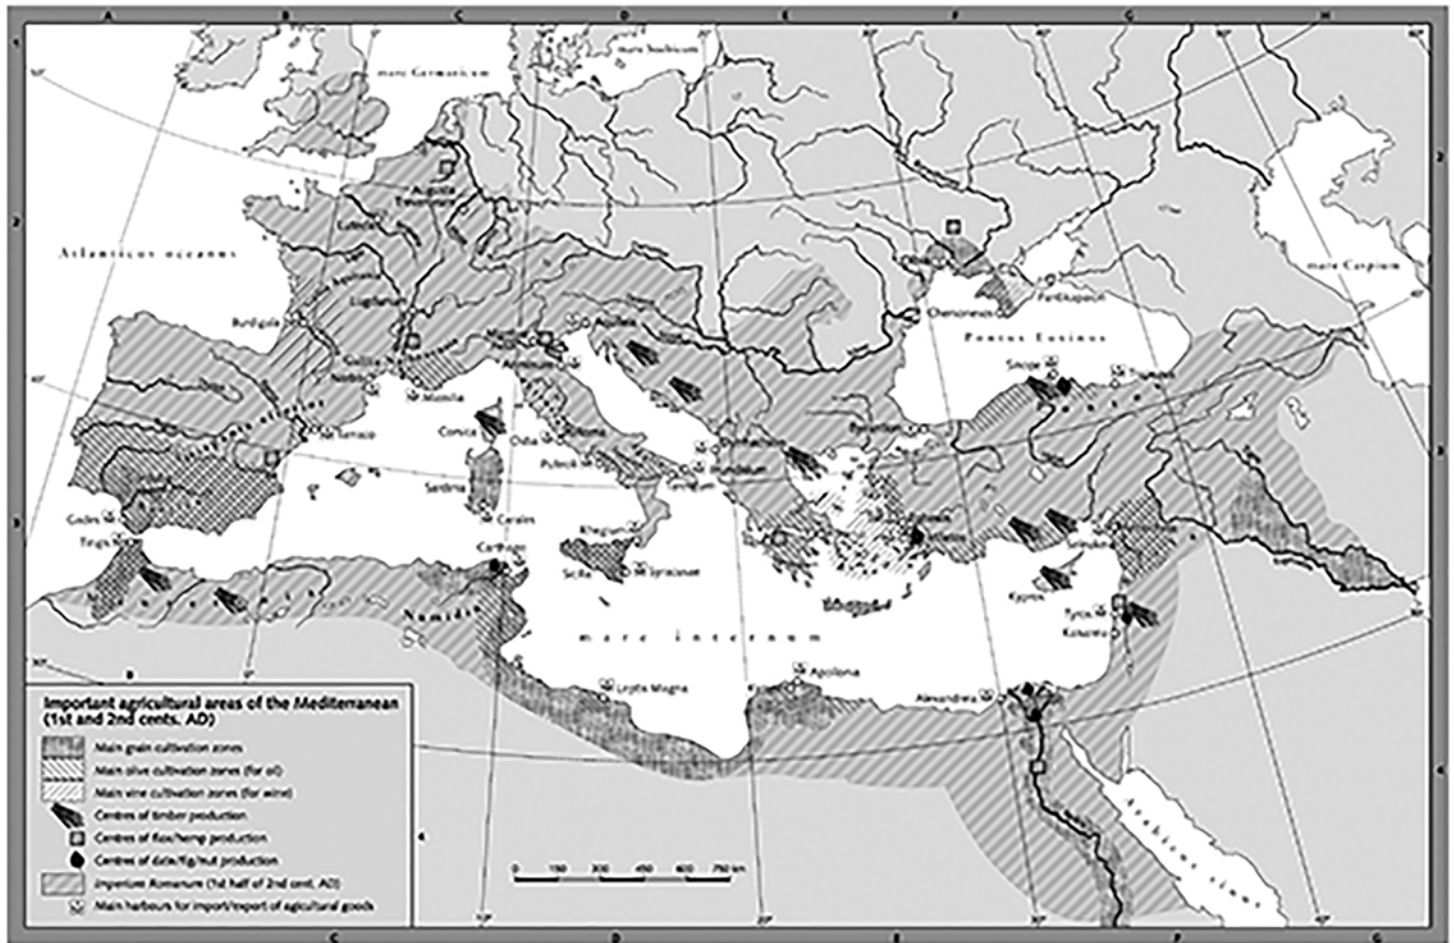

D • ICONS > GREEK > ROMAN > EGYPTIAN/ANE • 10%

Use the following as a guide.

identify the symbols	GREEK	ROMAN	EGYPTIAN / NEAR EAST
